

FREE PET HEALTH EXAMS

While every pet adopted from Santa Maria Valley Humane Society has been vaccinated, spayed or neutered, micro-chipped and examined by our shelter veterinarian, we strongly recommend that every family who adopts a new pet establish a relationship with their own private practice veterinarian.

As a courtesy to you, the veterinarians at the participating clinics below have agreed to provide a **FREE HEALTH EXAMINATION** for any dog or cat adopted from Santa Maria Valley Humane Society.

Appointment for your pet's health exam must be made within two weeks of adoption. There is no charge for the office visit or health examination, though regular fees will apply for additional services. 🐾
